

DC CART with led kit COOL WHITE

The use of LED lamps is an innovation that offers numerous advantages over conventional NEON lamps. In particular the possibility to adjust the amount of light and the light spectrum (light colour) specific to the needs of the plant. The **COOL WHITE LED** kit is the ideal light to **stimulate germination or grafting** and all phases that require "stasis" or a suspension of plant growth.

cart SLIM series

- 4 shelves
- 2 led lights per shelf (8 tot)
- Distance between shelves 40 cm
- (LxWxH) 1350x565x1900 mm

LED	SLIM
USAGE	Germination Grafting
LIGHT SPECTRUM	6500 K
PPF	22
PPFD	40 - 75
POWER	13 W
DC voltage	220 (driver) 24v (led)
Beam angle	120°
Temperature amb	Max 35° Min -10°
Degree of protection	IP65
DIMENSIONS L x W x H	1250 x 12 x 16,3 mm
